Election/Restrictions

1. The restriction requirement between inventions, as set forth in the Office action mailed on 6 December 2006, has been reconsidered in view of the allowability of claims to the elected invention pursuant to MPEP § 821.04(a). **The restriction requirement is hereby withdrawn as to any claim that requires all the limitations of an allowable claim.** Claim 19-25, directed to a system for thermally galvanizing an object are no longer withdrawn from consideration because the claim(s) requires all the limitations of an allowable claim. However, claim 26 directed to the system of claim 16 in accordance with the method of claim 1 stands withdrawn due to the failure to further limit the structure of the system of claim 16.

Also, claims 1-15 directed towards a method for thermally galvanizing an object, claims 27-40 drawn to a device for shot blasting at least one object, claims 41-43 drawn to the method of claim 1, claim 44 drawn to the device of claim 27, claim 45 drawn to a system for thermally galvanizing an object and claim 46 drawn to a device for shot blasting at least one object remain withdrawn from consideration because they do not require all the limitations of an allowable claim.

In view of the above noted withdrawal of the restriction requirement, applicant is advised that if any claim presented in a continuation or divisional application is anticipated by, or includes all the limitations of, a claim that is allowable in the present application, such claim may be subject to provisional statutory and/or nonstatutory double patenting rejections over the claims of the instant application.

Once a restriction requirement is withdrawn, the provisions of 35 U.S.C. 121 are no longer applicable. See *In re Ziegler*, 443 F.2d 1211, 1215, 170 USPQ 129, 131-32 (CCPA 1971). See also MPEP § 804.01.

EXAMINER'S AMENDMENT

2. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Peter Hsuch on 12 December 2007.

The application has been amended as follows:

In the claims:

Claims 1-15 and 26-46 are cancelled.

Allowable Subject Matter

3. Claims 16-25 are allowed.

The following is an examiner's statement of reasons for allowance: The prior art neither anticipates nor renders obvious a system for thermally galvanizing an object as claimed in independent claim 16.

The closest prior art is as discussed in detail in the previous office action.

Applicant's arguments were persuasive and the amendment to the claims overcome the prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
